ACCESS TO WIRELESS INTERNET

HOW TO CONNECT TO THE WIRELESS NETWORK

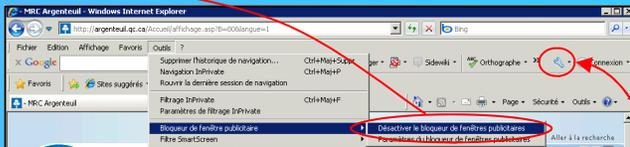

1

DEACTIVATE THE POP-UP BLOCKERS

To operate the wireless network, you must disable any pop-up blocker. The pop-up blockers prevent the login page to be displayed correctly.

To deactivate the pop-up blocker on Internet Explorer 8

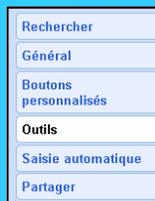

- Go to the tools menu
- Go to pop-up blocker
- Deactivate the publicity pop up blocker

To disable the pop-up blocker on the Google Toolbar

- Press the configuration button
- Go to the TOOLS section
- Uncheck the POP-UP BLOCKING

If you use other software pop-up blockers other than those listed, disable them.

2 WIRELESS CONNECTION TO THE INTERNET

- Click Start, Connection then Wireless Network Connection

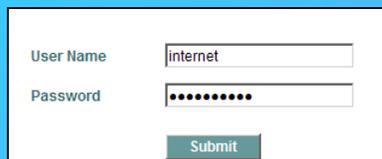

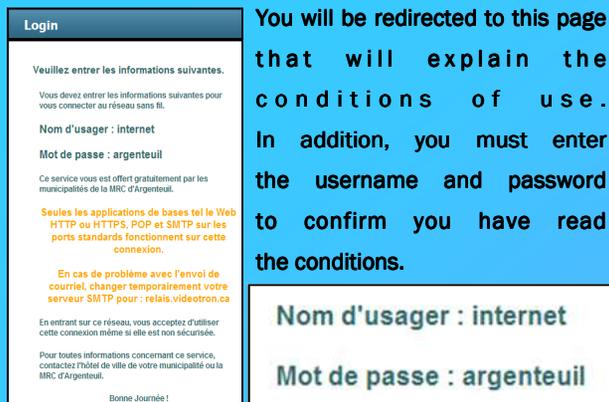

- Connect to the Wireless network **INVITÉ**

The connection may take a few minutes

- Once connected, open Internet Explorer

3 TO DISCONNECT FROM THE NETWORK

- Click Start, Connections, then Click Wireless Network Connection

- Click on the Network **INVITÉ** and then disconnect
