**MANDATORY INFORMATION NEEDED FOR YOUR REQUEST FOR A NEW CONSTRUCTION,
RE-CONSTRUCTION OR ENLARGEMENT**

The distances and dimensions must be in meters: **1 meter = 3.281 feet**

- a) **A project plan of implantation:** indicating the dimension of the land, the projected location of the construction work, including its dimensions, the setbacks, all current or projected elements, that could affect the construction notably: the topography of the land, right of ways, passages, paths, infrastructures, power lines, septic installation, well, the high water line, wet lands;
- b) **A confirmation of a mandate awarded to a land surveyor** for the creation of a certificate of localization following the realization of the work;
- c) **The complete construction plans** along with a description of the work being considered, including plans, quotes, elevations, wall cuts, profiles (of all the storeys and the frontage), the materials and the exterior finishing and the colors;
- d) If you foresee **carrying out work in the basement**, you must supply the Municipality with a plan drawn to scale including the usage, the rooms, the dimensions, the size of the windows along with the location of the smoke detectors;
- e) A plan indicating the location of the **parking area, driveway and location and width of the driveway**;
- f) The location of **fences, hedges, low walls and retaining walls**;
- g) If applicable, the request for a septic installation duly completed and signed including the soil test prepared and signed by a professional in this field;
- h) If applicable, the request for the groundwater catchment (well permit request) duly completed and signed;
- i) If applicable, an authorization from the Minister of Transport of Quebec, for any work carried out on an access road maintained by the Minister;
- j) If applicable, a plan signed by an engineer once the foundation work is done;
- k) If applicable, all the necessary documents or all information **when the land is located in a flooding zone, a wet zone, on the shoreline of a water course** showing the characterization of the zone and the localization of the protective shoreline which is essential according to the Policy of protection of banks, the shorelines and flooding zones;
- l) If applicable, the acceptance or an attestation from the **C.P.T.A.Q.** (Commission de protection du territoire du Québec).

**ATTENTION : BY-LAWS ON PERMITS AND CERTIFICATES NO. 195-2012,
ARTICLE 2.1.8: MODIFICATIONS OF THE PLANS AND DOCUMENTS**

Any modifications made to the plans and the documents previously approved by the appointed Municipal Officials cancels the permit or the certificate unless these plans, were subject to an approval prior to starting the work in conformity with the Planning-By-Law.

NOTE: The present form aims at accelerating the request of a permit and constitute at no time either a complete request or an authorization to proceed with your project.

The Municipality of the Township of Harrington cannot guarantee that the present form is up to date at all times and does assume any responsibility for differences that may occur between the original text and the electronic text of this form.
